SUBJECT INDEX

NOTE: Abstract Index follows Author Index

A

Acrylics
Clinical assessment of long-term safety and efficacy of a widely implanted polyacrylic intraocular lens material, 310

Adenocarcinoma
Labial adenocarcinoma after treatment with cyclosporin A in a patient with panuveitis, 127

Adolescence
Acquired and progressive retinal nerve fiber layer myelination in an adolescent, 361

Recurrent orbital solitary fibrous tumor in a 14-year-old girl, 373

β-Adrenergic antagonists
Contralateral effect of topical β-adrenergic antagonists in initial one-eyed trials in the Ocular Hypertension Treatment Study, 441

Advanced Glaucoma Intervention Study
The Advanced Glaucoma Intervention Study (AGIS): 7. The relationship between control of intraocular pressure and visual field deterioration, 429

Age groups
Age-dependent prevalence of mutations at the *GLC1A* locus in primary open-angle glaucoma, 165

Aging
Reproductive exposures, incident age-related cataracts, and age-related maculopathy in women: the Beaver Dam Eye Study, 322

A short questionnaire on visual function of older adults to supplement ophthalmic examination, 350

Air bags
Air bag–induced corneal flap folds after laser in situ keratomileusis, 234

Air pressure
Effect of infusion air pressure on visual field defects after macular hole surgery, 611

Albuterol
Acute angle-closure glaucoma after albuterol nebulizer treatment, 123

Alcohol
A case-control study of tobacco and alcohol consumption in Leber hereditary optic neuropathy, 803

Aldehyde dehydrogenase
Juvenile macular dystrophy associated with deficient activity of fatty aldehyde dehydrogenase in Sjögren-Larsson syndrome, 782

Alkylating agents
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Alport syndrome
Dot-and-fleck retinopathy in Alport syndrome caused by a novel mutation in the COL4A5 gene, 130

Amblyopia
Phakic posterior chamber intraocular lens for the correction of anisometropia and treatment of amblyopia, 292

American Journal of Ophthalmology
The *American Journal of Ophthalmology*: electronic augmentation on the Internet (correspondence), 138

Amniotic membrane
Amniotic membrane transplantation in acute chemical and thermal injury, 134

Amyloidosis
Chorioretinal involvement in primary systemic nonfamilial amyloidosis, 250

Systemic amyloidosis presenting as a mass of the conjunctival semilunar fold, 523

Anemia, aplastic
Monitoring patients taking oral carbonic anhydrase inhibitors (editorial), 221

Animal studies
Appearance of the optic disk and retinal nerve fiber layer in atherosclerosis and arterial hypertension: an experimental study in rhesus monkeys, 91

Anisometropia
Phakic posterior chamber intraocular lens for the correction of anisometropia and treatment of amblyopia, 292

Anterior chamber
Clonally accumulating T cells in the anterior chanber of Behçet's disease, 243

Anterior eye segment
Differences in ocular surface irritation between timolol hemihydrate and timolol maleate, 712

Long-term posterior and anterior segment complications of immune recovery uveitis associated with cytomegalovirus retinitis, 57

Ultrasound biomicroscopy of the anterior segment after congenital cataract surgery, 483

Anti-inflammatory drugs, nonsteroidal
Episcleritis and scleritis: clinical features and treatment results, 469

Antibiotics
The effectiveness of a topical antibiotic irrigating solution in a model of staphylococcal keratitis after lamellar keratectomy, 20

Antibodies, antiphospholipid
Antiphospholipid antibodies and retinal thrombosis in patients without risk factors: a prospective case-control study (correspondence), 538

Antihistamines
Emedastine ophthalmic solution 0.05% versus levocabastine ophthalmic suspension 0.05% in the treatment of allergic conjunctivitis using the conjunctival allergen challenge model, 717

Astigmatism
Comparison of visual results in initial and re-treatment laser in situ keratomileusis procedures for myopia and astigmatism, 1

Influence of astigmatism on multifocal and monofocal intraocular lenses, 477

Photorefractive keratectomy for compound myopic astigmatism, 12

0002-9394/00/$20.00
PII S0002-9394(00)00888-6

© 2000 BY ELSEVIER SCIENCE INC. ALL RIGHTS RESERVED.

Atherosclerosis
Appearance of the optic disk and retinal nerve fiber layer in atherosclerosis and arterial hypertension: an experimental study in rhesus monkeys, 91

The role of the atherosclerotic process in the pathogenesis of age-related macular degeneration (editorial), 659

Autopsy
Retinal histopathology of an autopsy eye with advanced retinitis pigmentosa in a family with rhodopsin Glu181Lys, 790

Axenfeld-Rieger syndrome
Axenfeld-Rieger syndrome in the age of molecular genetics, 107

Axons
Axonal loss in a patient with anterior ischemic optic neuropathy as measured with scanning laser polarimetry, 847

Azathioprine
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

B

Bacitracin
Orbital compartment syndrome caused by intraorbital bacitracin ointment after endoscopic sinus surgery, 376

***Bartonella* infections**
Ocular bartonellosis (editorial), 340

Optic disk edema associated with peripapillary serous retinal detachment: an early sign of systemic *Bartonella henselae* infection, 327

Basement membrane
Sloughing of corneal epithelium and wound healing complications associated with laser in situ keratomileusis in patients with epithelial basement membrane dystrophy, 297

Beaver Dam Eye Study
Reproductive exposures, incident age-related cataracts, and age-related maculopathy in women: the Beaver Dam Eye Study, 322

Behçet disease
Clonally accumulating T cells in the anterior chanber of Behçet's disease, 243

Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Betaxolol
Contralateral effect of topical β-adrenergic antagonists in initial one-eyed trials in the Ocular Hypertension Treatment Study, 441

Bielschowsky head-tilt phenomenon
Large Bielschowsky head-tilt phenomenon and inconspicuous positions in congenital superior oblique palsy, 854

Bleb revision
Amniotic membrane transplantation for repair of leaking glaucoma filtering blebs, 580

Revision of dysfunctional filtering blebs by conjunctival advancement with bleb preservation, 574

Blepharoptosis
Blepharoptosis-induced superior keratoconus, 232

Blepharoptosis surgery complicated by late suture migration, 116

Chronic exposure keratopathy complicating surgical correction of ptosis in patients with chronic progressive external ophthalmoplegia, 519

Blindness
Bilateral blindness and lumbosacral myelopathy associated with high-dose carmustine and cisplatin therapy, 367

Blood flow velocity
Assessment of optic disk blood flow in patients with open-angle glaucoma, 589

Measurement of microcirculation in optic nerve head by laser speckle flowgraphy in normal volunteers, 606

Normal-tension glaucoma with reversed ophthalmic artery flow, 670

Perifoveal microcirculation before and after vitrectomy for diabetic cystoid macular edema, 740

Relationship between ocular perfusion pressure and retrobulbar blood flow in patients with glaucoma with progressive damage, 597

Blue Mountains Eye Study
Iris color and cataract: the Blue Mountains Eye Study, 237

Bone
Osteogenesis in a human hydroxyapatite orbital implant 5.5 years after implantation, 368

Bone marrow transplantation
Reversal of optic canal stenosis in osteopetrosis after bone marrow transplant, 370

Books, Software, and Electronic Media
Atlas of Ophthalmology, by Parrish, R. K. (ed.), 685

The Wilmer Ophthalmological Institute 1925–2000, by Welch, R. B., 685

Brachytherapy
Intraoperative echographic localization of iodine-125 episcleral plaque for brachytherapy of choroidal melanoma (correspondence), 539

Plaque radiotherapy for management of ciliary body and choroidal melanoma with extraocular extension, 97

Brimonidine
Anterior uveitis as a side effect of topical brimonidine, 287

Burns, chemical
Amniotic membrane transplantation in acute chemical and thermal injury, 134

C

Carbohydrate-deficient glycoprotein syndrome
Ocular motor signs in an infant with carbohydrate-deficient glycoprotein syndrome type 1a, 533

Carbonic anhydrase inhibitors
Monitoring patients taking oral carbonic anhydrase inhibitors (editorial), 221

Carcinoma, squamous cell
Bilateral choroidal metastases secondary to uterocervical carcinoma of the squamous cell type, 682

Carmustine
Bilateral blindness and lumbosacral myelopathy associated with high-dose carmustine and cisplatin therapy, 367

Carrot intake
Recurrence of idiopathic intracranial hypertension after weight loss: the carrot craver, 850

Cataract
The Madurai Intraocular Lens Study IV: posterior capsule opacification, 304
Cataract surgery with ciliary sulcus fixation of intraocular lenses in patients with uveitis (correspondence), 257
Clinical assessment of long-term safety and efficacy of a widely implanted polyacrylic intraocular lens material, 310
Epilenticular intraocular lens implantation in traumatic cataract with a ruptured posterior capsule, 352
Iris color and cataract: the Blue Mountains Eye Study, 237
Outcomes of combined cataract extraction, lens implantation, and trabeculectomy surgeries, 704
Reproductive exposures, incident age-related cataracts, and age-related maculopathy in women: the Beaver Dam Eye Study, 322
Ultrasound biomicroscopy of the anterior segment after congenital cataract surgery, 483

Caterpillar setae
Caterpillar setae–induced acute anterior uveitis: a case report, 841
Ultrasound biomicroscopy in the diagnosis and management of pars planitis caused by caterpillar hairs, 125

Chiari malformation
Isolated comitant esotropia and Chiari I malformation, 216

Child
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492
Lymphocytic choriomeningitis virus chorioretinitis mimicking ocular toxoplasmosis in two otherwise normal children, 245
Outcome of probing for congenital nasolacrimal duct obstruction in older children, 42
Phakic posterior chamber intraocular lens for the correction of anisometropia and treatment of amblyopia, 292
Surgical management of recurrent iris stromal cyst, 122
Systemic toxicity of topical and periocular corticosteroid therapy in an 11-year-old male with posterior uveitis, 240
Ultrasound biomicroscopy of the anterior segment after congenital cataract surgery, 483

Chlorambucil
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Chorioretinitis
Lymphocytic choriomeningitis virus: an underdiagnosed cause of congenital chorioretinitis, 209
Lymphocytic choriomeningitis virus chorioretinitis mimicking ocular toxoplasmosis in two otherwise normal children, 245

Chorioretinopathy
Submacular surgery to remove choroidal neovascularization associated with central serous chorioretinopathy, 187
Systemic findings associated with central serous chorioretinopathy (correspondence), 379

Chorioretinopathy, birdshot
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Choroid
Chorioretinal involvement in primary systemic nonfamilial amyloidosis, 250

Choroidal neoplasms
Bilateral choroidal metastases secondary to uterocervical carcinoma of the squamous cell type, 682
Bilateral diffuse choroidal hemangiomas with unilateral facial nevus flammeus in Sturge–Weber syndrome, 362
Concurrent choroidal melanoma in son and father, 679
Intraoperative echographic localization of iodine-125 episcleral plaque for brachytherapy of choroidal melanoma (correspondence), 539
Optical coherence tomography patterns of choroidal osteoma, 131
Plaque radiotherapy for management of ciliary body and choroidal melanoma with extraocular extension, 97
Ultrasonographic evidence of a mushroom-shaped choroidal metastasis, 681

Choroidal neovascularization
Age-related macular degeneration: long-term results of radiotherapy for subfoveal neovascular membranes, 617
Choroidal neovascular membranes: reproducibility of angiographic interpretation, 839
Choroidal neovascularization with granulomatous inflammation in ocular histoplasmosis syndrome, 237
Comparison of visual function after foveal translocation with 360° retinotomy and with scleral shortening in a patient with bilateral myopic neovascular maculopathy, 525
Complications associated with limited macular translocation, 751
Inhibition of experimental choroidal neovascularization by overexpression of tissue inhibitor of metalloproteinase-3 in retinal pigment epithelium cells, 774
Limited inferior macular translocation for the treatment of subfoveal choroidal neovascularization secondary to age-related macular degeneration, 419
Open retinotomy after submacular surgery, 838
Optical coherence tomographic features of idiopathic submacular choroidal neovascularization, 763
Submacular surgery to remove choroidal neovascularization associated with central serous chorioretinopathy, 187
Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: I. Ophthalmic outcomes, 387
Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: II, Quality of life outcome, 408

Choroiditis, multifocal
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Choroidopathy, serpiginous
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Ciliary body
Plaque radiotherapy for management of ciliary body and choroidal melanoma with extraocular extension, 97

Cisplatin
Bilateral blindness and lumbosacral myelopathy associated with high-dose carmustine and cisplatin therapy, 367

Colonic neoplasms
Ultrasonographic evidence of a mushroom-shaped choroidal metastasis, 681

Compartment syndromes
Orbital compartment syndrome caused by intraorbital bacitracin ointment after endoscopic sinus surgery, 376

Conjunctiva
Revision of dysfunctional filtering blebs by conjunctival advancement with bleb preservation, 574

Systemic amyloidosis presenting as a mass of the conjunctival semilunar fold, 523

Conjunctivitis
Use of topical cyclosporin for conjunctival manifestations of actinic prurigo, 830

Conjunctivitis, allergic
Emedastine ophthalmic solution 0.05% versus levocabastine ophthalmic suspension 0.05% in the treatment of allergic conjunctivitis using the conjunctival allergen challenge model, 717

Contact lenses
Gas-permeable scleral contact lens therapy in ocular surface disease, 25

Treatment of persistent corneal epithelial defect with extended wear of a fluid-ventilated gas-permeable scleral contact lens, 33

Contrast media
Orbital compression syndrome after orbital extravasation of x-ray contrast material, 530

Cornea
Air bag–induced corneal flap folds after laser in situ keratomileusis, 234

Blepharoptosis-induced superior keratoconus, 232

Chronic exposure keratopathy complicating surgical correction of ptosis in patients with chronic progressive external ophthalmoplegia, 519

Compound nevus of the cornea simulating a foreign body, 235

Corneal optical coherence tomography before and immediately after excimer laser photorefractive keratectomy, 693

Differences in ocular surface irritation between timolol hemihydrate and timolol maleate, 712

The effectiveness of a topical antibiotic irrigating solution in a model of staphylococcal keratitis after lamellar keratectomy, 20

Marginal keratitis: an uncommon form of topical dorsolamide allergy, 120

Photorefractive keratectomy for compound myopic astigmatism, 12

Presumed activation of herpetic keratouveitis after argon laser peripheral iridotomy, 665

Sloughing of corneal epithelium and wound healing complications associated with laser in situ keratomileusis in patients with epithelial basement membrane dystrophy, 297

Treatment of persistent corneal epithelial defect with extended wear of a fluid-ventilated gas-permeable scleral contact lens, 33

Unusual corneal deposit after the topical use of cyclosporine as eyedrops, 667

Corneal dystrophies, hereditary
Association of autosomal dominantly inherited corneal dystrophies with *BIGH3* gene mutations in Japan, 516

Juvenile macular dystrophy associated with deficient activity of fatty aldehyde dehydrogenase in Sjögren-Larsson syndrome, 782

Lisch corneal dystrophy is genetically distinct from Meesmann corneal dystrophy and maps to Xp22.3, 461

Q118X mutation of M1S1 gene caused by drop-like corneal dystrophy: the P501T of BIGH3 gene found in a family with gelatinous drop-like corneal dystrophy, 119

Corticosteroid therapy
Corticosteroid therapy for optic disk neovascularization secondary to chronic uveitis, 724

Episcleritis and scleritis: clinical features and treatment results, 469

Systemic toxicity of topical and periocular corticosteroid therapy in an 11-year-old male with posterior uveitis, 240

Crohn disease
Neovascular glaucoma as a complication of retinal vasculitis in Crohn disease, 528

Cyclophosphamide
Episcleritis and scleritis: clinical features and treatment results, 469

Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Cyclosporine
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Labial adenocarcinoma after treatment with cyclosporin A in a patient with panuveitis, 127

Unusual corneal deposit after the topical use of cyclosporine as eyedrops, 667

Use of topical cyclosporin for conjunctival manifestations of actinic prurigo, 830

Cyst
Surgical management of recurrent iris stromal cyst, 122

Cytomegalovirus infections
Ocular side-effects from systemic HPMPC (cidofovir) for a non–ocular cytomegalovirus infection, 126

Cytomegalovirus retinitis
Immune-recovery uveitis in patients with cytomegalovirus retinitis taking highly active antiretroviral therapy, 49

Long-term posterior and anterior segment complications of immune recovery uveitis associated with cytomegalovirus retinitis, 57

Reversible bull's-eye maculopathy associated with intravitreal fomivirsen therapy for cytomegalovirus retinitis, 242

D

Descemet membrane
Descemet membrane detachment after viscocanalostomy, 833

Diabetes mellitus
Influence of rapid glycemic control on lens opacity in patients with diabetes mellitus, 354

Diabetic retinopathy
Elevated vitreous nitric oxide levels in patients with proliferative diabetic retinopathy, 87

Perifoveal microcirculation before and after vitrectomy for diabetic cystoid macular edema, 740

Vitrectomy for diffuse diabetic macular edema associated with a taut premacular posterior hyaloid, 178

Dorzolamide
A comparison of dorzolamide–timolol combination versus the concomitant drugs, 832

Marginal keratitis: an uncommon form of topical dorzolamide allergy, 120

Down syndrome
Acute megakaryoblastic leukemia in Down syndrome: orbital infiltration, 128

Drug approval
Update of regulatory review intervals for ophthalmic new drug applications at the United States Food and Drug Administration, 664

Drug hypersensitivity
Marginal keratitis: an uncommon form of topical dorzolamide allergy, 120

Drug-induced conditions
Acute angle-closure glaucoma after albuterol nebulizer treatment, 123

Anterior uveitis as a side effect of topical brimonidine, 287

Bilateral blindness and lumbosacral myelopathy associated with high-dose carmustine and cisplatin therapy, 367

Labial adenocarcinoma after treatment with cyclosporin A in a patient with panuveitis, 127

Monitoring patients taking oral carbonic anhydrase inhibitors (editorial), 221

Ocular myasthenia and nitrofurantoin, 531

Ocular side-effects from systemic HPMPC (cidofovir) for a non–ocular cytomegalovirus infection, 126

Orbital compartment syndrome caused by intraorbital bacitracin ointment after endoscopic sinus surgery, 376

Reversible bull's-eye maculopathy associated with intravitreal fomivirsen therapy for cytomegalovirus retinitis, 242

Systemic toxicity of topical and periocular corticosteroid therapy in an 11-year-old male with posterior uveitis, 240

Drug therapy
Contralateral effect of topical β-adrenergic antagonists in initial one-eyed trials in the Ocular Hypertension Treatment Study, 441

The effectiveness of a topical antibiotic irrigating solution in a model of staphylococcal keratitis after lamellar keratectomy, 20

Effects of latanoprost and timolol-XE on hydrodynamics in the normal eye, 151

Episcleritis and scleritis: clinical features and treatment results, 469

Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Long-term intraocular pressure–lowering efficacy and safety of timolol maleate gel-forming solution 0.5% compared with timoptic XE 0.5% in a 12-month study, 145

Optic disk topography after medical treatment to reduce intraocular pressure, 280

E

Emedastine
Emedastine ophthalmic solution 0.05% versus levocabastine ophthalmic suspension 0.05% in the treatment of allergic conjunctivitis using the conjunctival allergen challenge model, 717

Endophthalmitis
Tubercular endophthalmitis simulating retinoblastoma, 843

Endoscopy
Orbital compartment syndrome caused by intraorbital bacitracin ointment after endoscopic sinus surgery, 376

Epidermoid cyst
Bilateral papilledema from a massive intracranial epidermoid cyst, 254

Episcleritis
Episcleritis and scleritis: clinical features and treatment results, 469

Epithelium, corneal
Sloughing of corneal epithelium and wound healing complications associated with laser in situ keratomileusis in patients with epithelial basement membrane dystrophy, 297

Treatment of persistent corneal epithelial defect with extended wear of a fluid-ventilated gas-permeable scleral contact lens, 33

Esotropia
Isolated comitant esotropia and Chiari I malformation, 216

Estrogen
Reproductive exposures, incident age-related cataracts, and age-related maculopathy in women: the Beaver Dam Eye Study, 322

Ethmoid sinus
Traumatic displacement of the globe into the ethmoid sinus, 253

Eye movements
Ocular motor signs in an infant with carbohydrate-deficient glycoprotein syndrome type 1a, 533

Eye
Contralateral monocular dominance in anterior visual cortex confirmed by functional magnetic resonance imaging, 821

Eye burns
Amniotic membrane transplantation in acute chemical and thermal injury, 134

Eye diseases
Gas-permeable scleral contact lens therapy in ocular surface disease, 25

Eye injuries
Air bag–induced corneal flap folds after laser in situ keratomileusis, 234

Epilenticular intraocular lens implantation in traumatic cataract with a ruptured posterior capsule, 352

Traumatic displacement of the globe into the ethmoid sinus, 253

Eyelid neoplasms
Surgical debulking of eyelid and anterior orbital plexiform neurofibromas by means of the carbon dioxide laser, 117

Eyelids
Blepharoptosis-induced superior keratoconus, 232

Blepharoptosis surgery complicated by late suture migration, 116

F

Family
Concurrent choroidal melanoma in son and father, 679

Filtering surgery
Amniotic membrane transplantation for repair of leaking glaucoma filtering blebs, 580

Revision of dysfunctional filtering blebs by conjunctival advancement with bleb preservation, 574

Fluctuations
Learning effect, short-term fluctuation, and long-term fluctuation in frequency doubling technique, 160

Fluid-air exchange
Effect of infusion air pressure on visual field defects after macular hole surgery, 611

Visual field defects after vitrectomy with fluid-air exchange (editorial), 653

Fluorescein angiography
Choroidal neovascular membranes: reproducibility of angiographic interpretation, 839

5-Fluorouracil
Randomized,controlled study of low-dose 5-fluorouracil in primary trabeculectomy, 700

Fomivirsen
Reversible bull's-eye maculopathy associated with intravitreal fomivirsen therapy for cytomegalovirus retinitis, 242

Fovea centralis
Comparison of visual function after foveal translocation with 360° retinotomy and with scleral shortening in a patient with bilateral myopic neovascular maculopathy, 525

Perifoveal microcirculation before and after vitrectomy for diabetic cystoid macular edema, 740

Frequency doubling
Learning effect, short-term fluctuation, and long-term fluctuation in frequency doubling technique, 160

Fundus oculi
Molecular genetics of Oguchi disease, fundus albipunctatus, and other forms of stationary night blindness: LVII Edward Jackson Memorial Lecture, 547

A novel compound heterozygous mutation in the *RDH5* gene in a patient with fundus albipunctatus, 672

G

Gene therapy
Inhibition of experimental choroidal neovascularization by overexpression of tissue inhibitor of metalloproteinase-3 in retinal pigment epithelium cells, 774

Genetics
Age-dependent prevalence of mutations at the *GLC1A* locus in primary open-angle glaucoma, 165

Association of autosomal dominantly inherited corneal dystrophies with *BIGH3* gene mutations in Japan, 516

Axenfeld-Rieger syndrome in the age of molecular genetics, 107

Clinical spectrum of chromosome 6–linked autosomal dominant drusen and macular degeneration, 203

Dot-and-fleck retinopathy in Alport syndrome caused by a novel mutation in the COL4A5 gene, 130

Genetic association of manganese superoxide dismutase with exudative age-related macular degeneration, 769

Lisch corneal dystrophy is genetically distinct from Meesmann corneal dystrophy and maps to Xp22.3, 461

Molecular genetics of Oguchi disease, fundus albipunctatus, and other forms of stationary night blindness: LVII Edward Jackson Memorial Lecture, 547

A new locus for dominant drusen and macular degeneration maps to chromosome 6q14, 197

A novel compound heterozygous mutation in the *RDH5* gene in a patient with fundus albipunctatus, 672

Novel mutation in *RP2* gene in two brothers with X-linked retinitis pigmentosa and mtDNA mutation of Leber hereditary optic neuropathy who showed marked differences in clinical severity, 357

Q118X mutation of M1S1 gene caused by drop-like corneal dystrophy: the P501T of BIGH3 gene found in a family with gelatinous drop-like corneal dystrophy, 119

Glaucoma
The Advanced Glaucoma Intervention Study (AGIS): 7. The relationship between control of intraocular pressure and visual field deterioration, 429

Ahmed glaucoma valve implant vs trabeculectomy in the surgical treatment of glaucoma: a randomized clinical trial, 267

Amniotic membrane transplantation for repair of leaking glaucoma filtering blebs, 580

A comparison of dorzolamide–timolol combination versus the concomitant drugs, 832

Criteria for progression of glaucoma in clinical management and in outcome studies (editorial), 827

Descemet membrane detachment after viscocanalostomy, 833

Emerging perspectives on glaucoma: highlights of a roundtable discussion, S1

Neovascular glaucoma as a complication of retinal vasculitis in Crohn disease, 528

Normal-tension glaucoma with reversed ophthalmic artery flow, 670

Outcomes of combined cataract extraction, lens implantation, and trabeculectomy surgeries, 704

Randomized,controlled study of low-dose 5-fluorouracil in primary trabeculectomy, 700

Relationship between ocular perfusion pressure and retrobulbar blood flow in patients with glaucoma with progressive damage, 597

Retrobulbar hemodynamics in normal-tension glaucoma with asymmetric visual field change and asymmetric ocular perfusion pressure, 454

Revision of dysfunctional filtering blebs by conjunctival advancement with bleb preservation, 574

Transcorneal oxygen therapy for glaucoma associated with sickle cell hyphema, 514

Glaucoma, angle-closure
Acute angle-closure glaucoma after albuterol nebulizer treatment, 123
Successful goniosynechialysis for angle-closure glaucoma after vitreoretinal surgery, 834

Glaucoma, open-angle
Age-dependent prevalence of mutations at the *GLC1A* locus in primary open-angle glaucoma, 165
Assessment of optic disk blood flow in patients with open-angle glaucoma, 589
Factors associated with long-term progression or stability in primary open-angle glaucoma, 274
Intraocular pressure and visual field progression in open-angle glaucoma (editorial), 490
Long-term intraocular pressure–lowering efficacy and safety of timolol maleate gel-forming solution 0.5% compared with timoptic XE 0.5% in a 12-month study, 145

Glucose levels
Influence of rapid glycemic control on lens opacity in patients with diabetes mellitus, 354

Goniosynechialysis
Successful goniosynechialysis for angle-closure glaucoma after vitreoretinal surgery, 834

Granulomatous inflammation
Choroidal neovascularization with granulomatous inflammation in ocular histoplasmosis syndrome, 237

H

Health care delivery
Health, medicine, and ophthalmology (correspondence), 379

Hemangioma
Bilateral diffuse choroidal hemangiomas with unilateral facial nevus flammeus in Sturge–Weber syndrome, 362

Hemodynamics
Measurement of microcirculation in optic nerve head by laser speckle flowgraphy in normal volunteers, 606
Normal-tension glaucoma with reversed ophthalmic artery flow, 670
Relationship between ocular perfusion pressure and retrobulbar blood flow in patients with glaucoma with progressive damage, 597
Retrobulbar hemodynamics in normal-tension glaucoma with asymmetric visual field change and asymmetric ocular perfusion pressure, 454

Herpes simplex
Presumed activation of herpetic keratouveitis after argon laser peripheral iridotomy, 665

Hirschsprung disease
Tonic pupil associated with congenital neuroblastoma, Hirschsprung disease, and central hypoventilation syndrome, 238

Histamine H1 antagonists
Emedastine ophthalmic solution 0.05% versus levocabastine ophthalmic suspension 0.05% in the treatment of allergic conjunctivitis using the conjunctival allergen challenge model, 717

Histoplasmosis
Choroidal neovascularization with granulomatous inflammation in ocular histoplasmosis syndrome, 237

HIV infection
Immune recovery uveitis (editorial), 103
Immune-recovery uveitis in patients with cytomegalovirus retinitis taking highly active antiretroviral therapy, 49
Long-term posterior and anterior segment complications of immune recovery uveitis associated with cytomegalovirus retinitis, 57
Ocular side-effects from systemic HPMPC (cidofovir) for a non–ocular cytomegalovirus infection, 126

Hormonal status
Reproductive exposures, incident age-related cataracts, and age-related maculopathy in women: the Beaver Dam Eye Study, 322

Hyaloid membrane
Vitrectomy for diffuse diabetic macular edema associated with a taut premacular posterior hyaloid, 178

Hydroxyapatite
Osteogenesis in a human hydroxyapatite orbital implant 5.5 years after implantation, 368

Hyperglycemia
Influence of rapid glycemic control on lens opacity in patients with diabetes mellitus, 354

Hypersensitivity
Emedastine ophthalmic solution 0.05% versus levocabastine ophthalmic suspension 0.05% in the treatment of allergic conjunctivitis using the conjunctival allergen challenge model, 717
Marginal keratitis: an uncommon form of topical dorzolamide allergy, 120

Hypertension
Appearance of the optic disk and retinal nerve fiber layer in atherosclerosis and arterial hypertension: an experimental study in rhesus monkeys, 91

Hyphema
Transcorneal oxygen therapy for glaucoma associated with sickle cell hyphema, 514

Hypoventilation syndrome, central
Tonic pupil associated with congenital neuroblastoma, Hirschsprung disease, and central hypoventilation syndrome, 238

I

Immune system
Immune recovery uveitis (editorial), 103
Immune-recovery uveitis in patients with cytomegalovirus retinitis taking highly active antiretroviral therapy, 49
Long-term posterior and anterior segment complications of immune recovery uveitis associated with cytomegalovirus retinitis, 57

Immunosuppressive drugs
Episcleritis and scleritis: clinical features and treatment results, 469
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Indomethacin
Episcleritis and scleritis: clinical features and treatment results, 469

Infant
Ocular motor signs in an infant with carbohydrate-deficient glycoprotein syndrome type 1a, 533

Infant, newborn
Ophthalmic manifestations of neonatal onset multisystem inflammatory disease, 856

Infections
The effectiveness of a topical antibiotic irrigating solution in a model of staphylococcal keratitis after lamellar keratectomy, 20

Maximizing surgeon safety during excimer laser photorefractive procedures (editorial), 825

Ocular bartonellosis (editorial), 340

Ocular side-effects from systemic HPMPC (cidofovir) for a non–ocular cytomegalovirus infection, 126

Optic disk edema associated with peripapillary serous retinal detachment: an early sign of systemic *Bartonella henselae* infection, 327

Tubercular endophthalmitis simulating retinoblastoma, 843

Inflammation
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Inflammatory disease
Ophthalmic manifestations of neonatal onset multisystem inflammatory disease, 856

Insurance, health
Health, medicine, and ophthalmology (correspondence), 379

International Federation of Ophthalmological Societies
International Federation of Ophthalmological Societies statutes and regulations, 224

Internet
The *American Journal of Ophthalmology*: electronic augmentation on the Internet (correspondence), 138

Intracranial hypertension
Recurrence of idiopathic intracranial hypertension after weight loss: the carrot craver, 850

Intracranial neoplasms
Bilateral papilledema from a massive intracranial epidermoid cyst, 254

Intraocular lenses
Spontaneous luxation of encapsulated intraocular lens onto the retina after a triple procedure of vitrectomy, phacoemulsification, and intraocular lens implantation, 836

Intraocular pressure
The Advanced Glaucoma Intervention Study (AGIS): 7. The relationship between control of intraocular pressure and visual field deterioration, 429

A comparison of dorzolamide–timolol combination versus the concomitant drugs, 832

Contralateral effect of topical β-adrenergic antagonists in initial one-eyed trials in the Ocular Hypertension Treatment Study, 441

Effects of latanoprost and timolol-XE on hydrodynamics in the normal eye, 151

Intraocular pressure and visual field progression in open-angle glaucoma (editorial), 490

Long-term intraocular pressure–lowering efficacy and safety of timolol maleate gel-forming solution 0.5% compared with timoptic XE 0.5% in a 12-month study, 145

Optic disk topography after medical treatment to reduce intraocular pressure, 280

Retrobulbar hemodynamics in normal-tension glaucoma with asymmetric visual field change and asymmetric ocular perfusion pressure, 454

Intraoperative period
Intraoperative echographic localization of iodine-125 episcleral plaque for brachytherapy of choroidal melanoma (correspondence), 539

Iodine-125
Intraoperative echographic localization of iodine-125 episcleral plaque for brachytherapy of choroidal melanoma (correspondence), 539

Iridotomy
Presumed activation of herpetic keratouveitis after argon laser peripheral iridotomy, 665

Iris
Iris color and cataract: the Blue Mountains Eye Study, 237

Surgical management of recurrent iris stromal cyst, 122

Irrigation
The effectiveness of a topical antibiotic irrigating solution in a model of staphylococcal keratitis after lamellar keratectomy, 20

J

Japan
Association of autosomal dominantly inherited corneal dystrophies with *BIGH3* gene mutations in Japan, 516

K

Keratectomy, photorefractive, excimer laser
Corneal optical coherence tomography before and immediately after excimer laser photorefractive keratectomy, 693

Maximizing surgeon safety during excimer laser photorefractive procedures (editorial), 825

Photorefractive keratectomy for compound myopic astigmatism, 12

Keratitis
The effectiveness of a topical antibiotic irrigating solution in a model of staphylococcal keratitis after lamellar keratectomy, 20

Marginal keratitis: an uncommon form of topical dorzolamide allergy, 120

Presumed activation of herpetic keratouveitis after argon laser peripheral iridotomy, 665

Keratoconus
Blepharoptosis-induced superior keratoconus, 232

Keratomileusis, laser in situ
Air bag–induced corneal flap folds after laser in situ keratomileusis, 234

Comparison of visual results in initial and re-treatment laser in situ keratomileusis procedures for myopia and astigmatism, 1

Flap complications associated with lamellar refractive surgery (correspondence), 258

Laser in situ keratomileusis flap margin: wound healing and complications imaged by in vivo confocal microscopy, 564

Retinal detachment in myopic eyes after laser in situ keratomileusis (correspondence), 259

Sloughing of corneal epithelium and wound healing complications associated with laser in situ keratomileusis in

patients with epithelial basement membrane dystrophy, 297

Keratoplasty, penetrating
Penetrating keratoplasty from a temporal approach, 517

L

Lacrimal duct obstruction
Outcome of probing for congenital nasolacrimal duct obstruction in older children, 42

Lasers
Amsler grid examination and optical coherence tomography of a macular hole caused by accidental Nd:YAG laser injury, 355

Axonal loss in a patient with anterior ischemic optic neuropathy as measured with scanning laser polarimetry, 847

Comparison of visual results in initial and re-treatment laser in situ keratomileusis procedures for myopia and astigmatism, 1

Erbium-YAG laser vitrectomy: clinical results, 82

Maximizing surgeon safety during excimer laser photorefractive procedures (editorial), 825

Measurement of microcirculation in optic nerve head by laser speckle flowgraphy in normal volunteers, 606

Mizuo phenomenon observed by scanning laser ophthalmoscopy in a patient with Oguchi disease, 359

Photorefractive keratectomy for compound myopic astigmatism, 12

Presumed activation of herpetic keratouveitis after argon laser peripheral iridotomy, 665

Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: I. Ophthalmic outcomes, 387

Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: II, Quality of life outcome, 408

Surgical debulking of eyelid and anterior orbital plexiform neurofibromas by means of the carbon dioxide laser, 117

Latanoprost
Effects of latanoprost and timolol-XE on hydrodynamics in the normal eye, 151

Optic disk topography after medical treatment to reduce intraocular pressure, 280

Learning effect
Learning effect, short-term fluctuation, and long-term fluctuation in frequency doubling technique, 160

Lens, crystalline
Influence of rapid glycemic control on lens opacity in patients with diabetes mellitus, 354

Lenses, intraocular
Cataract surgery with ciliary sulcus fixation of intraocular lenses in patients with uveitis (correspondence), 257

Clinical assessment of long-term safety and efficacy of a widely implanted polyacrylic intraocular lens material, 310

Epilenticular intraocular lens implantation in traumatic cataract with a ruptured posterior capsule, 352

Influence of astigmatism on multifocal and monofocal intraocular lenses, 477

The Madurai Intraocular Lens Study IV: posterior capsule opacification, 304

Outcomes of combined cataract extraction, lens implantation, and trabeculectomy surgeries, 704

Phakic posterior chamber intraocular lens for the correction of anisometropia and treatment of amblyopia, 292

Leukemia, megakaryocytic, acute
Acute megakaryoblastic leukemia in Down syndrome: orbital infiltration, 128

Levobunolol
Contralateral effect of topical β-adrenergic antagonists in initial one-eyed trials in the Ocular Hypertension Treatment Study, 441

Levocabastine
Emedastine ophthalmic solution 0.05% versus levocabastine ophthalmic suspension 0.05% in the treatment of allergic conjunctivitis using the conjunctival allergen challenge model, 717

Lip neoplasms
Labial adenocarcinoma after treatment with cyclosporin A in a patient with panuveitis, 127

Lymphocytic choriomeningitis
Lymphocytic choriomeningitis virus: an underdiagnosed cause of congenital chorioretinitis, 209

Lymphocytic choriomeningitis virus chorioretinitis mimicking ocular toxoplasmosis in two otherwise normal children, 245

Lymphoma
Orbital T-cell lymphoma in a multiple myeloma patient, 372

M

Macula lutea
Comparison of visual function after foveal translocation with 360[f407]"[/f407] retinotomy and with scleral shortening in a patient with bilateral myopic neovascular maculopathy, 525

Complications associated with limited macular translocation, 751

Limited inferior macular translocation for the treatment of subfoveal choroidal neovascularization secondary to age-related macular degeneration, 419

Optical coherence tomography of idiopathic macular epiretinal membranes before and after surgery, 732

Reversible bull's-eye maculopathy associated with intravitreal fomivirsen therapy for cytomegalovirus retinitis, 242

Scleral outfolding for macular translocation, 76

Three-dimensional observations of developing macular holes, 65

Macular degeneration
Age-related macular degeneration: long-term results of radiotherapy for subfoveal neovascular membranes, 617

Clinical spectrum of chromosome 6–linked autosomal dominant drusen and macular degeneration, 203

Genetic association of manganese superoxide dismutase with exudative age-related macular degeneration, 769

Limited inferior macular translocation for the treatment of subfoveal choroidal neovascularization secondary to age-related macular degeneration, 419

A new locus for dominant drusen and macular degeneration maps to chromosome 6q14, 197

Reproductive exposures, incident age-related cataracts, and age-related maculopathy in women: the Beaver Dam Eye Study, 322

The role of the atherosclerotic process in the pathogenesis of age-related macular degeneration (editorial), 659

Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: I. Ophthalmic outcomes, 387

Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: II, Quality of life outcome, 408

Macular edema

Perifoveal microcirculation before and after vitrectomy for diabetic cystoid macular edema, 740

Vitrectomy for diffuse diabetic macular edema associated with a taut premacular posterior hyaloid, 178

Madurai Intraocular Lens Study

The Madurai Intraocular Lens Study IV: posterior capsule opacification, 304

Magnetic resonance imaging

Contralateral monocular dominance in anterior visual cortex confirmed by functional magnetic resonance imaging, 821

Manganese

Genetic association of manganese superoxide dismutase with exudative age-related macular degeneration, 769

Medulloepithelioma

Echographic features of medulloepithelioma, 364

Melanocytoma

Optical coherence tomography of melanocytoma, 845

Melanoma

Concurrent choroidal melanoma in son and father, 679

Intraoperative echographic localization of iodine-125 episcleral plaque for brachytherapy of choroidal melanoma (correspondence), 539

Plaque radiotherapy for management of ciliary body and choroidal melanoma with extraocular extension, 97

Meningitis

Pachymeningitis with pseudo–Foster Kennedy syndrome, 535

Methotrexate

Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Metipranolol

Contralateral effect of topical β-adrenergic antagonists in initial one-eyed trials in the Ocular Hypertension Treatment Study, 441

Microcirculation

Measurement of microcirculation in optic nerve head by laser speckle flowgraphy in normal volunteers, 606

Perifoveal microcirculation before and after vitrectomy for diabetic cystoid macular edema, 740

Microscopy

Ultrasound biomicroscopy in the diagnosis and management of pars planitis caused by caterpillar hairs, 125

Ultrasound biomicroscopy of the anterior segment after congenital cataract surgery, 483

Microscopy, confocal

Laser in situ keratomileusis flap margin: wound healing and complications imaged by in vivo confocal microscopy, 564

Mizuo phenomenon

Mizuo phenomenon observed by scanning laser ophthalmoscopy in a patient with Oguchi disease, 359

Monitoring

Monitoring patients taking oral carbonic anhydrase inhibitors (editorial), 221

Multiple myeloma

Orbital T-cell lymphoma in a multiple myeloma patient, 372

Myasthenia

Ocular myasthenia and nitrofurantoin, 531

Mycophenolate mofetil

Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Myelin

Acquired and progressive retinal nerve fiber layer myelination in an adolescent, 361

Myopia

Comparison of visual function after foveal translocation with 360° retinotomy and with scleral shortening in a patient with bilateral myopic neovascular maculopathy, 525

Comparison of visual results in initial and re-treatment laser in situ keratomileusis procedures for myopia and astigmatism, 1

Outcomes of macular hole surgery in severely myopic eyes: a case-control study, 335

Photorefractive keratectomy for compound myopic astigmatism, 12

Retinal detachment in myopic eyes after laser in situ keratomileusis (correspondence), 259

N

Nasolacrimal duct

Outcome of probing for congenital nasolacrimal duct obstruction in older children, 42

Nebulizers

Acute angle-closure glaucoma after albuterol nebulizer treatment, 123

Neoplasm metastasis

Bilateral choroidal metastases secondary to uterocervical carcinoma of the squamous cell type, 682

Plaque radiotherapy for management of ciliary body and choroidal melanoma with extraocular extension, 97

Ultrasonographic evidence of a mushroom-shaped choroidal metastasis, 681

Neoplasms

Bilateral diffuse choroidal hemangiomas with unilateral facial nevus flammeus in Sturge–Weber syndrome, 362

Concurrent choroidal melanoma in son and father, 679

Echographic features of medulloepithelioma, 364

Labial adenocarcinoma after treatment with cyclosporin A in a patient with panuveitis, 127

Optical coherence tomography of melanocytoma, 845

Optical coherence tomography patterns of choroidal osteoma, 131

Orbital T-cell lymphoma in a multiple myeloma patient, 372

Recurrent orbital solitary fibrous tumor in a 14-year-old girl, 373

Stages of improvement in visual fields after pituitary tumor resection, 813

Surgical debulking of eyelid and anterior orbital plexiform neurofibromas by means of the carbon dioxide laser, 117

Neovascularization, pathologic

Choroidal neovascularization with granulomatous inflammation in ocular histoplasmosis syndrome, 237

Comparison of visual function after foveal translocation with 360° retinotomy and with scleral shortening in a patient with bilateral myopic neovascular maculopathy, 525

Corticosteroid therapy for optic disk neovascularization secondary to chronic uveitis, 724

Limited inferior macular translocation for the treatment of subfoveal choroidal neovascularization secondary to age-related macular degeneration, 419

Neovascular glaucoma as a complication of retinal vasculitis in Crohn disease, 528

Submacular surgery to remove choroidal neovascularization associated with central serous chorioretinopathy, 187

Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: I. Ophthalmic outcomes, 387

Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: II, Quality of life outcome, 408

Nephritis, hereditary

Dot-and-fleck retinopathy in Alport syndrome caused by a novel mutation in the COL4A5 gene, 130

Neuroblastoma

Tonic pupil associated with congenital neuroblastoma, Hirschsprung disease, and central hypoventilation syndrome, 238

Neurofibroma

Surgical debulking of eyelid and anterior orbital plexiform neurofibromas by means of the carbon dioxide laser, 117

Nevus

Compound nevus of the cornea simulating a foreign body, 235

Night blindness

Molecular genetics of Oguchi disease, fundus albipunctatus, and other forms of stationary night blindness: LVII Edward Jackson Memorial Lecture, 547

Nitric oxide

Elevated vitreous nitric oxide levels in patients with proliferative diabetic retinopathy, 87

Nitrofurantoin

Ocular myasthenia and nitrofurantoin, 531

O

Oblique muscle of eyeball, superior

Large Bielschowsky head-tilt phenomenon and inconspicuous positions in congenital superior oblique palsy, 854

Ocular hypertension

Long-term intraocular pressure–lowering efficacy and safety of timolol maleate gel-forming solution 0.5% compared with timoptic XE 0.5% in a 12-month study, 145

Ocular Hypertension Treatment Study

Contralateral effect of topical β-adrenergic antagonists in initial one-eyed trials in the Ocular Hypertension Treatment Study, 441

Ocular hypotension

Ocular side-effects from systemic HPMPC (cidofovir) for a non–ocular cytomegalovirus infection, 126

Ocular motility disorders

Ocular motor signs in an infant with carbohydrate-deficient glycoprotein syndrome type 1a, 533

Ofloxacin

The effectiveness of a topical antibiotic irrigating solution in a model of staphylococcal keratitis after lamellar keratectomy, 20

Oguchi disease

Mizuo phenomenon observed by scanning laser ophthalmoscopy in a patient with Oguchi disease, 359

Molecular genetics of Oguchi disease, fundus albipunctatus, and other forms of stationary night blindness: LVII Edward Jackson Memorial Lecture, 547

Opacification

The Madurai Intraocular Lens Study IV: posterior capsule opacification, 304

Influence of rapid glycemic control on lens opacity in patients with diabetes mellitus, 354

Ophthalmic artery

Normal-tension glaucoma with reversed ophthalmic artery flow, 670

Ophthalmic solutions

Emedastine ophthalmic solution 0.05% versus levocabastine ophthalmic suspension 0.05% in the treatment of allergic conjunctivitis using the conjunctival allergen challenge model, 717

Unusual corneal deposit after the topical use of cyclosporine as eyedrops, 667

Update of regulatory review intervals for ophthalmic new drug applications at the United States Food and Drug Administration, 664

Ophthalmology

Health, medicine, and ophthalmology (correspondence), 379

Ophthalmoplegia

Chronic exposure keratopathy complicating surgical correction of ptosis in patients with chronic progressive external ophthalmoplegia, 519

Ophthalmoscopy

Mizuo phenomenon observed by scanning laser ophthalmoscopy in a patient with Oguchi disease, 359

Optic atrophy

A case-control study of tobacco and alcohol consumption in Leber hereditary optic neuropathy, 803

Novel mutation in *RP2* gene in two brothers with X-linked retinitis pigmentosa and mtDNA mutation of Leber hereditary optic neuropathy who showed marked differences in clinical severity, 357

Optic disc pallor and retinal atrophy in Sotos syndrome (cerebral gigantism), 853

Optic canal

Reversal of optic canal stenosis in osteopetrosis after bone marrow transplant, 370

Optic disk
Appearance of the optic disk and retinal nerve fiber layer in atherosclerosis and arterial hypertension: an experimental study in rhesus monkeys, 91
Assessment of optic disk blood flow in patients with open-angle glaucoma, 589
Corticosteroid therapy for optic disk neovascularization secondary to chronic uveitis, 724
Measurement of microcirculation in optic nerve head by laser speckle flowgraphy in normal volunteers, 606
Optic disk topography after medical treatment to reduce intraocular pressure, 280

Optic nerve diseases
Pachymeningitis with pseudo–Foster Kennedy syndrome, 535

Optic neuropathy, ischemic
Axonal loss in a patient with anterior ischemic optic neuropathy as measured with scanning laser polarimetry, 847

Orbit
Acute megakaryoblastic leukemia in Down syndrome: orbital infiltration, 128
Orbital compression syndrome after orbital extravasation of x-ray contrast material, 530

Orbital fracture
Traumatic displacement of the globe into the ethmoid sinus, 253

Orbital implants
Osteogenesis in a human hydroxyapatite orbital implant 5.5 years after implantation, 368

Orbital neoplasms
Orbital T-cell lymphoma in a multiple myeloma patient, 372
Recurrent orbital solitary fibrous tumor in a 14-year-old girl, 373
Surgical debulking of eyelid and anterior orbital plexiform neurofibromas by means of the carbon dioxide laser, 117

Osteogenesis
Osteogenesis in a human hydroxyapatite orbital implant 5.5 years after implantation, 368

Osteoma
Optical coherence tomography patterns of choroidal osteoma, 131

Outcome assessment
Comparison of visual results in initial and re-treatment laser in situ keratomileusis procedures for myopia and astigmatism, 1
Criteria for progression of glaucoma in clinical management and in outcome studies (editorial), 827
Design of the Low Vision Quality-of-Life Questionnaire and measuring the outcome of low-vision rehabilitation, 793
Outcomes of macular hole surgery in severely myopic eyes: a case-control study, 335
Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: I. Ophthalmic outcomes, 387

Oxygen
Transcorneal oxygen therapy for glaucoma associated with sickle cell hyphema, 514

P

Panuveitis
Labial adenocarcinoma after treatment with cyclosporin A in a patient with panuveitis, 127

Papilledema
Bilateral papilledema from a massive intracranial epidermoid cyst, 254
Ophthalmic manifestations of neonatal onset multisystem inflammatory disease, 856
Optic disk edema associated with peripapillary serous retinal detachment: an early sign of systemic *Bartonella henselae* infection, 327
Recurrence of idiopathic intracranial hypertension after weight loss: the carrot craver, 850

Paralysis
Large Bielschowsky head-tilt phenomenon and inconspicuous positions in congenital superior oblique palsy, 854

Paranasal sinuses
Orbital compartment syndrome caused by intraorbital bacitracin ointment after endoscopic sinus surgery, 376

Pars planitis
Ultrasound biomicroscopy in the diagnosis and management of pars planitis caused by caterpillar hairs, 125

Pemphigoid, mucous membrane
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Perfusion pressure
Relationship between ocular perfusion pressure and retrobulbar blood flow in patients with glaucoma with progressive damage, 597

Perimetry
Learning effect, short-term fluctuation, and long-term fluctuation in frequency doubling technique, 160

Phacoemulsification
Spontaneous luxation of encapsulated intraocular lens onto the retina after a triple procedure of vitrectomy, phacoemulsification, and intraocular lens implantation, 836

Phakic lenses
Phakic posterior chamber intraocular lens for the correction of anisometropia and treatment of amblyopia, 292

Phospholipids
Antiphospholipid antibodies and retinal thrombosis in patients without risk factors: a prospective case-control study (correspondence), 538

Pigment epithelium of eye
Inhibition of experimental choroidal neovascularization by overexpression of tissue inhibitor of metalloproteinase-3 in retinal pigment epithelium cells, 774

Pituitary neoplasms
Stages of improvement in visual fields after pituitary tumor resection, 813

Port-wine stain
Bilateral diffuse choroidal hemangiomas with unilateral facial nevus flammeus in Sturge–Weber syndrome, 362

Posterior chamber
Phakic posterior chamber intraocular lens for the correction of anisometropia and treatment of amblyopia, 292

Posterior eye segment
Long-term posterior and anterior segment complications of immune recovery uveitis associated with cytomegalovirus retinitis, 57

Posterior lens capsule
The Madurai Intraocular Lens Study IV: posterior capsule opacification, 304

Epilenticular intraocular lens implantation in traumatic cataract with a ruptured posterior capsule, 352

Postoperative complications
Amniotic membrane transplantation for repair of leaking glaucoma filtering blebs, 580

Blepharoptosis surgery complicated by late suture migration, 116

Chronic exposure keratopathy complicating surgical correction of ptosis in patients with chronic progressive external ophthalmoplegia, 519

A complication of scleral expansion surgery for treatment of presbyopia, 521

Complications associated with limited macular translocation, 751

Descemet membrane detachment after viscocanalostomy, 833

Flap complications associated with lamellar refractive surgery (correspondence), 258

Laser in situ keratomileusis flap margin: wound healing and complications imaged by in vivo confocal microscopy, 564

Orbital compartment syndrome caused by intraorbital bacitracin ointment after endoscopic sinus surgery, 376

Retinal detachment in myopic eyes after laser in situ keratomileusis (correspondence), 259

Sloughing of corneal epithelium and wound healing complications associated with laser in situ keratomileusis in patients with epithelial basement membrane dystrophy, 297

Spontaneous luxation of encapsulated intraocular lens onto the retina after a triple procedure of vitrectomy, phacoemulsification, and intraocular lens implantation, 836

Successful goniosynechialysis for angle-closure glaucoma after vitreoretinal surgery, 834

Prednisone
Episcleritis and scleritis: clinical features and treatment results, 469

Pregnancy
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Presbyopia
A complication of scleral expansion surgery for treatment of presbyopia, 521

Probing
Outcome of probing for congenital nasolacrimal duct obstruction in older children, 42

Prurigo
Use of topical cyclosporin for conjunctival manifestations of actinic prurigo, 830

Q

Quality of life
Design of the Low Vision Quality-of-Life Questionnaire and measuring the outcome of low-vision rehabilitation, 793

Submacular surgery trials randomized pilot trial of laser photocoagulation versus surgery for recurrent choroidal neovascularization secondary to age-related macular degeneration: II, Quality of life outcome, 408

Questionnaires
Design of the Low Vision Quality-of-Life Questionnaire and measuring the outcome of low-vision rehabilitation, 793

A short questionnaire on visual function of older adults to supplement ophthalmic examination, 350

R

Radiotherapy
Age-related macular degeneration: long-term results of radiotherapy for subfoveal neovascular membranes, 617

Rectus medialis bulbi
Retrieval of lost medial rectus muscles with a combined ophthalmologic and otolaryngologic surgical approach, 645

Reoperation
Amniotic membrane transplantation for repair of leaking glaucoma filtering blebs, 580

Comparison of visual results in initial and re-treatment laser in situ keratomileusis procedures for myopia and astigmatism, 1

Revision of dysfunctional filtering blebs by conjunctival advancement with bleb preservation, 574

Retina
Acute annular outer retinopathy: report of four cases, 636

The acute zonal outer retinopathies (editorial), 655

Chorioretinal involvement in primary systemic nonfamilial amyloidosis, 250

Comparison of visual function after foveal translocation with 360° retinotomy and with scleral shortening in a patient with bilateral myopic neovascular maculopathy, 525

Dot-and-fleck retinopathy in Alport syndrome caused by a novel mutation in the COL4A5 gene, 130

Elevated vitreous nitric oxide levels in patients with proliferative diabetic retinopathy, 87

Optic disc pallor and retinal atrophy in Sotos syndrome (cerebral gigantism), 853

Retinal histopathology of an autopsy eye with advanced retinitis pigmentosa in a family with rhodopsin Glu181Lys, 790

Systemic findings associated with central serous chorioretinopathy (correspondence), 379

Retinal detachment
First operation anatomic success and other predictors of postoperative vision after complex retinal detachment repair with vitrectomy and silicone oil tamponade, 745

Optic disk edema associated with peripapillary serous retinal detachment: an early sign of systemic *Bartonella henselae* infection, 327

Retinal detachment in myopic eyes after laser in situ keratomileusis (correspondence), 259

Retinal drusen

Clinical spectrum of chromosome 6–linked autosomal dominant drusen and macular degeneration, 203

A new locus for dominant drusen and macular degeneration maps to chromosome 6q14, 197

Retinal nerve fiber layer

Acquired and progressive retinal nerve fiber layer myelination in an adolescent, 361

Appearance of the optic disk and retinal nerve fiber layer in atherosclerosis and arterial hypertension: an experimental study in rhesus monkeys, 91

Axonal loss in a patient with anterior ischemic optic neuropathy as measured with scanning laser polarimetry, 847

Retinal perforations

Amsler grid examination and optical coherence tomography of a macular hole caused by accidental Nd:YAG laser injury, 355

Effect of infusion air pressure on visual field defects after macular hole surgery, 611

Optical coherence tomography to confirm early closure of macular holes, 675

Outcomes of macular hole surgery in severely myopic eyes: a case-control study, 335

Three-dimensional observations of developing macular holes, 65

Tomographic features of a lamellar macular hole formation and a lamellar hole that progressed to a full-thickness macular hole, 677

Tomographic features of early macular hole closure after vitreous surgery, 192

Retinal vessels

Antiphospholipid antibodies and retinal thrombosis in patients without risk factors: a prospective case-control study (correspondence), 538

Decompensation of a congenital retinal macrovessel with arteriovenous communications induced by repetitive roller-coaster rides, 527

Neovascular glaucoma as a complication of retinal vasculitis in Crohn disease, 528

Retinitis

Immune-recovery uveitis in patients with cytomegalovirus retinitis taking highly active antiretroviral therapy, 49

Long-term posterior and anterior segment complications of immune recovery uveitis associated with cytomegalovirus retinitis, 57

Reversible bull's-eye maculopathy associated with intravitreal fomivirsen therapy for cytomegalovirus retinitis, 242

Retinitis pigmentosa

Novel mutation in *RP2* gene in two brothers with X-linked retinitis pigmentosa and mtDNA mutation of Leber hereditary optic neuropathy who showed marked differences in clinical severity, 357

Retinal histopathology of an autopsy eye with advanced retinitis pigmentosa in a family with rhodopsin Glu181Lys, 790

Retinochoroidopathy, birdshot

Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Retinotomy

Open retinotomy after submacular surgery, 838

Rhodopsin

Retinal histopathology of an autopsy eye with advanced retinitis pigmentosa in a family with rhodopsin Glu181Lys, 790

Rollercoaster rides

Decompensation of a congenital retinal macrovessel with arteriovenous communications induced by repetitive roller-coaster rides, 527

S

Safety management

Maximizing surgeon safety during excimer laser photorefractive procedures (editorial), 825

Sclera

Comparison of visual function after foveal translocation with 360° retinotomy and with scleral shortening in a patient with bilateral myopic neovascular maculopathy, 525

A complication of scleral expansion surgery for treatment of presbyopia, 521

Gas-permeable scleral contact lens therapy in ocular surface disease, 25

Intraoperative echographic localization of iodine-125 episcleral plaque for brachytherapy of choroidal melanoma (correspondence), 539

Scleral outfolding for macular translocation, 76

Treatment of persistent corneal epithelial defect with extended wear of a fluid-ventilated gas-permeable scleral contact lens, 33

Scleritis

Episcleritis and scleritis: clinical features and treatment results, 469

Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Sickle cell trait

Transcorneal oxygen therapy for glaucoma associated with sickle cell hyphema, 514

Silicone oils

First operation anatomic success and other predictors of postoperative vision after complex retinal detachment repair with vitrectomy and silicone oil tamponade, 745

Sjögren-Larsson syndrome

Juvenile macular dystrophy associated with deficient activity of fatty aldehyde dehydrogenase in Sjögren-Larsson syndrome, 782

Sleep apnea, central

Tonic pupil associated with congenital neuroblastoma, Hirschsprung disease, and central hypoventilation syndrome, 238

Sotos syndrome

Optic disc pallor and retinal atrophy in Sotos syndrome (cerebral gigantism), 853

Unilateral glaucoma in Sotos syndrome (cerebral gigantism), 851

Spinal cord diseases
Bilateral blindness and lumbosacral myelopathy associated with high-dose carmustine and cisplatin therapy, 367

Staphylococcus aureus
The effectiveness of a topical antibiotic irrigating solution in a model of staphylococcal keratitis after lamellar keratectomy, 20

Strabismus
Isolated comitant esotropia and Chiari I malformation, 216

Sturge–Weber syndrome
Bilateral diffuse choroidal hemangiomas with unilateral facial nevus flammeus in Sturge–Weber syndrome, 362

Submacular Surgery Trials Pilot Study
Report number 1, 387

Report number 2, 408

Superoxide dismutase
Genetic association of manganese superoxide dismutase with exudative age-related macular degeneration, 769

Sutures
Blepharoptosis surgery complicated by late suture migration, 116

T

T-lymphocytes
Clonally accumulating T cells in the anterior chanber of Behçet's disease, 243

Tacrolimus
Guidelines for the use of immunosuppressive drugs in patients with ocular inflammatory disorders: recommendations of an expert panel, 492

Thrombosis
Antiphospholipid antibodies and retinal thrombosis in patients without risk factors: a prospective case-control study (correspondence), 538

Timolol
A combination of dorzolamide–timolol combination versus the concomitant drugs, 832

Contralateral effect of topical β-adrenergic antagonists in initial one-eyed trials in the Ocular Hypertension Treatment Study, 441

Differences in ocular surface irritation between timolol hemihydrate and timolol maleate, 712

Effects of latanoprost and timolol-XE on hydrodynamics in the normal eye, 151

Long-term intraocular pressure–lowering efficacy and safety of timolol maleate gel-forming solution 0.5% compared with timoptic XE 0.5% in a 12-month study, 145

Tissue inhibitor of metalloproteinase-3
Inhibition of experimental choroidal neovascularization by overexpression of tissue inhibitor of metalloproteinase-3 in retinal pigment epithelium cells, 774

Tobacco
A case-control study of tobacco and alcohol consumption in Leber hereditary optic neuropathy, 803

Tomography
Amsler grid examination and optical coherence tomography of a macular hole caused by accidental Nd:YAG laser injury, 355

Corneal optical coherence tomography before and immediately after excimer laser photorefractive keratectomy, 693

Optical coherence tomographic features of idiopathic submacular choroidal neovascularization, 763

Optical coherence tomography in uveitis patients, 669

Optical coherence tomography of idiopathic macular epiretinal membranes before and after surgery, 732

Optical coherence tomography of melanocytoma, 845

Optical coherence tomography patterns of choroidal osteoma, 131

Optical coherence tomography to confirm early closure of macular holes, 675

Tomographic features of a lamellar macular hole formation and a lamellar hole that progressed to a full-thickness macular hole, 677

Tomographic features of early macular hole closure after vitreous surgery, 192

Tonic pupil
Tonic pupil associated with congenital neuroblastoma, Hirschsprung disease, and central hypoventilation syndrome, 238

Trabeculectomy
Ahmed glaucoma valve implant vs trabeculectomy in the surgical treatment of glaucoma: a randomized clinical trial, 267

Amniotic membrane transplantation for repair of leaking glaucoma filtering blebs, 580

Outcomes of combined cataract extraction, lens implantation, and trabeculectomy surgeries, 704

Randomized,controlled study of low-dose 5-fluorouracil in primary trabeculectomy, 700

Revision of dysfunctional filtering blebs by conjunctival advancement with bleb preservation, 574

Transplantation
Amniotic membrane transplantation for repair of leaking glaucoma filtering blebs, 580

Amniotic membrane transplantation in acute chemical and thermal injury, 134

Treatment outcome
Episcleritis and scleritis: clinical features and treatment results, 469

Tuberculosis
Tubercular endophthalmitis simulating retinoblastoma, 843

U

Ultrasonography
Echographic features of medulloepithelioma, 364

Intraoperative echographic localization of iodine-125 episcleral plaque for brachytherapy of choroidal melanoma (correspondence), 539

Ultrasonographic evidence of a mushroom-shaped choroidal metastasis, 681

Ultrasound biomicroscopy in the diagnosis and management of pars planitis caused by caterpillar hairs, 125

United States Food and Drug Administration
Update of regulatory review intervals for ophthalmic new drug applications at the United States Food and Drug Administration, 664

Uterine neoplasms
Bilateral choroidal metastases secondary to uterocervical carcinoma of the squamous cell type, 682

Uveitis
Anterior uveitis as a side effect of topical brimonidine, 287
Cataract surgery with ciliary sulcus fixation of intraocular lenses in patients with uveitis (correspondence), 257
Caterpillar setae–induced acute anterior uveitis: a case report, 841
Corticosteroid therapy for optic disk neovascularization secondary to chronic uveitis, 724
Immune recovery uveitis (editorial), 103
Immune-recovery uveitis in patients with cytomegalovirus retinitis taking highly active antiretroviral therapy, 49
Long-term posterior and anterior segment complications of immune recovery uveitis associated with cytomegalovirus retinitis, 57
Ocular side-effects from systemic HPMPC (cidofovir) for a non–ocular cytomegalovirus infection, 126
Optical coherence tomography in uveitis patients, 669
Presumed activation of herpetic keratouveitis after argon laser peripheral iridotomy, 665
Systemic toxicity of topical and periocular corticosteroid therapy in an 11-year-old male with posterior uveitis, 240

V

Vasculitis
Neovascular glaucoma as a complication of retinal vasculitis in Crohn disease, 528
Virus diseases
Immune-recovery uveitis in patients with cytomegalovirus retinitis taking highly active antiretroviral therapy, 49
Lymphocytic choriomeningitis virus: an underdiagnosed cause of congenital chorioretinitis, 209
Lymphocytic choriomeningitis virus chorioretinitis mimicking ocular toxoplasmosis in two otherwise normal children, 245
Maximizing surgeon safety during excimer laser photorefractive procedures (editorial), 825
Reversible bull's-eye maculopathy associated with intravitreal fomivirsen therapy for cytomegalovirus retinitis, 242
Viscocanalostomy
Descemet membrane detachment after viscocanalostomy, 833
Vision, low
Design of the Low Vision Quality-of-Life Questionnaire and measuring the outcome of low-vision rehabilitation, 793
Vision, monocular
Contralateral monocular dominance in anterior visual cortex confirmed by functional magnetic resonance imaging, 821
Visual acuity
Amsler grid examination and optical coherence tomography of a macular hole caused by accidental Nd:YAG laser injury, 355
Comparison of visual function after foveal translocation with 360° retinotomy and with scleral shortening in a patient with bilateral myopic neovascular maculopathy, 525
Comparison of visual results in initial and re-treatment laser in situ keratomileusis procedures for myopia and astigmatism, 1
First operation anatomic success and other predictors of postoperative vision after complex retinal detachment repair with vitrectomy and silicone oil tamponade, 745
Influence of astigmatism on multifocal and monofocal intraocular lenses, 477
Optical coherence tomography of idiopathic macular epiretinal membranes before and after surgery, 732
A short questionnaire on visual function of older adults to supplement ophthalmic examination, 350
Visual cortex
Contralateral monocular dominance in anterior visual cortex confirmed by functional magnetic resonance imaging, 821
Visual fields
The Advanced Glaucoma Intervention Study (AGIS): 7. The relationship between control of intraocular pressure and visual field deterioration, 429
Effect of infusion air pressure on visual field defects after macular hole surgery, 611
Intraocular pressure and visual field progression in open-angle glaucoma (editorial), 490
Learning effect, short-term fluctuation, and long-term fluctuation in frequency doubling technique, 160
Retrobulbar hemodynamics in normal-tension glaucoma with asymmetric visual field change and asymmetric ocular perfusion pressure, 454
Stages of improvement in visual fields after pituitary tumor resection, 813
Visual field defects after vitrectomy with fluid-air exchange (editorial), 653
Vitamin A toxicity
Recurrence of idiopathic intracranial hypertension after weight loss: the carrot craver, 850
Vitrectomy
Effect of infusion air pressure on visual field defects after macular hole surgery, 611
Erbium-YAG laser vitrectomy: clinical results, 82
First operation anatomic success and other predictors of postoperative vision after complex retinal detachment repair with vitrectomy and silicone oil tamponade, 745
Perifoveal microcirculation before and after vitrectomy for diabetic cystoid macular edema, 740
Spontaneous luxation of encapsulated intraocular lens onto the retina after a triple procedure of vitrectomy, phacoemulsification, and intraocular lens implantation, 836
Successful goniosynechialysis for angle-closure glaucoma after vitreoretinal surgery, 834
Visual field defects after vitrectomy with fluid-air exchange (editorial), 653
Vitrectomy for diffuse diabetic macular edema associated with a taut premacular posterior hyaloid, 178
Vitreous body
Elevated vitreous nitric oxide levels in patients with proliferative diabetic retinopathy, 87
Tomographic features of early macular hole closure after vitreous surgery, 192
Vitreous membrane
Vitrectomy for diffuse diabetic macular edema associated with a taut premacular posterior hyaloid, 178

W

Women

Reproductive exposures, incident age-related cataracts, and age-related maculopathy in women: the Beaver Dam Eye Study, 322

Wound healing

Laser in situ keratomileusis flap margin: wound healing and complications imaged by in vivo confocal microscopy, 564

Sloughing of corneal epithelium and wound healing complications associated with laser in situ keratomileusis in patients with epithelial basement membrane dystrophy, 297

Wounds and injuries

Amsler grid examination and optical coherence tomography of a macular hole caused by accidental Nd:YAG laser injury, 355

Retrieval of lost medial rectus muscles with a combined ophthalmologic and otolaryngologic surgical approach, 645

Traumatic displacement of the globe into the ethmoid sinus, 253

A

Academic medical centers
The academic health center, 382
Distribution of research awards from the National Institutes of Health among medical schools, 140
Educational programs in US medical schools, 1999–2000, 862
The evolving academic health center, 382
The perilous state of academic medicine, 381
The plight of academic health centers, 382
The quest for the therapeutic organization, 382
Racial and ethnic disparities in faculty promotion in academic medicine, 863
Sustaining change in medical education, 381

Accidents, aviation
Monovision contact lens use in the aviation environment: a report of a contact-lens related aircraft accident, 542

Accommodation, ocular
AC/A ratio, age, and refractive error in children, 690

Age
AC/A ratio, age, and refractive error in children, 690
Genetic and environmental factors in age-related nuclear cataracts in monozygotic and dizogotic twins, 383
Smoking cessation and risk of age-related cataract in men, 862

Alzheimer disease
Visual attention impairments in Alzheimer's disease, 384

Aniridia
Black diaphragm aniridia intraocular lens for congenital aniridia: long-term follow-up, 263

Antibiotic prophylaxis
Physicians' recommendations to patients for use of antibiotic prophylaxis to prevent endocarditis, 689

Anticonvulsants
Using the electroretinogram to detect and monitor the retinal toxicity of anticonvulsants (editorial), 691

Attention
Visual attention impairments in Alzheimer's disease, 384

Aviation
Monovision contact lens use in the aviation environment: a report of a contact-lens related aircraft accident, 542

B

Bacteremia
A prospective search for ocular lesions in hospitalized patients with significant bacteremia, 264

Biological markers
Flow cytometric analysis of inflammatory markers in conjunctival epithelial cells in patients with dry eyes, 385

Biomedical engineering
Successful transplantation of bioengineered tissue replacements in patients with ocular surface disease, 543

Blindness
Tactile spatial resolution in blind Braille readers, 542
Visual loss after spine surgery: a survey, 261

Braille readers
Tactile spatial resolution in blind Braille readers, 542

Brain
Interaction between HLA-DR2 and abnormal brain MRI in optic neuritis and early MS, 690
A neural basis for general intelligence, 687
Recovery from optic neuritis is associated with a change in the distribution of cerebral response to visual stimulation: a functional magnetic resonance imaging study, 262

Brain stem
A hypothetical scheme for the brainstem control of vertical gaze, 544

C

Cataract
Black diaphragm aniridia intraocular lens for congenital aniridia: long-term follow-up, 263
Genetic and environmental factors in age-related nuclear cataracts in monozygotic and dizogotic twins, 383
Impact of cataract surgery on visual acuity and subjective functional outcomes: a population-based study in Sweden, 142
The New Zealand cataract and refractive surgery survey 1997/1998, 543
Phacoemulsification in eyes with white cataract, 864
Risk factors for cortical, nuclear, and posterior subcapsular cataracts: the POLA study, 264
Smoking cessation and risk of age-related cataract in men, 862

Child
AC/A ratio, age, and refractive error in children, 690

Child abuse
Unnatural injuries, 541

Choroidal neovascularization
Clinicopathological correlation in exudative age related macular degeneration: histological differentiation between classic and occult choroidal neovascularization, 142
Proton beam irradiation of subfoveal choroidal neovascularization in age-related macular degeneration, 541
Radiotherapy for subfoveal neovascularization associated with pathological myopia: a pilot study, 542

Chromosome 21
The DNA sequence of human chromosome 21, 383

Circadian rhythm
Effect of timolol, latanoprost, and dorzolamide on circadian IOP in glaucoma or ocular hypertension, 687

Clinical trials
A comparison of observational studies and randomized, controlled trials, 688
Radiotherapy for Graves' orbitopathy: randomized placebo-controlled study, 382

Color vision defects
Genetic bases of total colourblindness among the Pingelapese islanders, 865

PII S0002-9394(00)00889-8

Cone photoreceptors
ABCR expression in foveal cone photoreceptors and its role in Stargardt macular dystrophy, 689

Conjunctiva
Conjunctiva-associated lymphoid tissue in the human eye, 385

Conjunctival cells
Flow cytometric analysis of inflammatory markers in conjunctival epithelial cells in patients with dry eyes, 385

Toxicity of preserved and unpreserved antiglaucoma topical drugs in an in vitro model of conjunctival cells, 264

Contact lenses
Monovision contact lens use in the aviation environment: a report of a contact-lens related aircraft accident, 542

Contrast sensitivity
The effect of contrast on reading speed in dyslexia, 545

Controlled clinical trials
A comparison of observational studies and randomized, controlled trials, 688

Cornea
Corneal structure and sensitivity in type 1 diabetes mellitus, 865

The elusive causes of keratoconus: a working hypothesis, 263

Lysostaphin treatment of methicillin-resistant *Staphylococcus aureus* keratitis in the rabbit, 544

Reconstruction of damaged corneas by transplantation of autologous limbal epithelial cells, 543

The resiliency of the corneal endothelium to refractive and intraocular surgery, 384

Successful transplantation of bioengineered tissue replacements in patients with ocular surface disease, 543

Corneal dystrophies, hereditary
ABCR expression in foveal cone photoreceptors and its role in Stargardt macular dystrophy, 689

Corticobasal degeneration
Longitudinal ocular motor study in corticobasal degeneration and progressive supranuclear palsy, 142

Corticosteroid therapy
Practice parameter: the role of corticosteroids in the management of acute monosymptomatic optic neuritis. Report of the Quality Standards Subcommittee of the American Academy of Neurology, 541

Treatment of ocular myasthenia. Steroids only when compelled, 382

Treatment of ocular myasthenia with corticosteroids. Yes, 382

Costs and cost analysis
Cost-utility analysis of screening intervals for diabetic retinopathy in patients with type 2 diabetes mellitus, 140

CS gas
Is CS gas dangerous?, 262

Cuba
Molecular studies in Cuban patients with progressive external ophthalmoplegia. [Article in Spanish.], 864

D

Dark adaptation
Impaired dark adaptation in polycythemia. Improvement after treatment, 143

Diabetes mellitus
Corneal structure and sensitivity in type 1 diabetes mellitus, 865

Diabetic retinopathy
Cost-utility analysis of screening intervals for diabetic retinopathy in patients with type 2 diabetes mellitus, 140

DNA
The DNA sequence of human chromosome 21, 383

Dorzolamide
Effect of timolol, latanoprost, and dorzolamide on circadian IOP in glaucoma or ocular hypertension, 687

Doxycycline
Doxycycline inhibition of interleukin-1 in the corneal epithelium, 688

Drug industry
Physicians and the pharmaceutical industry: is a gift ever just a gift?, 261

Drug toxicity
Separating the retinal electrophysiologic effects of vigabatrin. Treatment versus field loss, 691

Toxicity of preserved and unpreserved antiglaucoma topical drugs in an in vitro model of conjunctival cells, 264

Using the electroretinogram to detect and monitor the retinal toxicity of anticonvulsants (editorial), 691

Visual function loss from vigabatrin. Effect of stopping the drug, 691

Dry eye syndromes
Flow cytometric analysis of inflammatory markers in conjunctival epithelial cells in patients with dry eyes, 385

Dyslexia
The effect of contrast on reading speed in dyslexia, 545

Monocular occlusion can improve binocular control and reading in dyslexics, 140

E

Education, medical
Educational programs in US medical schools, 1999–2000, 862

The perilous state of academic medicine, 381

Sustaining change in medical education, 381

Electrophysiology
Separating the retinal electrophysiologic effects of vigabatrin. Treatment versus field loss, 691

Electroretinography
Using the electroretinogram to detect and monitor the retinal toxicity of anticonvulsants (editorial), 691

Endocarditis
Physicians' recommendations to patients for use of antibiotic prophylaxis to prevent endocarditis, 689

Endothelium, corneal
The resiliency of the corneal endothelium to refractive and intraocular surgery, 384

Environment
Genetic and environmental factors in age-related nuclear cataracts in monozygotic and dizogotic twins, 383

Epithelial cells
Flow cytometric analysis of inflammatory markers in conjunctival epithelial cells in patients with dry eyes, 385

Reconstruction of damaged corneas by transplantation of autologous limbal epithelial cells, 543

Epithelium, corneal
Doxycycline inhibition of interleukin-1 in the corneal epithelium, 688

Ethics
What makes clinical research ethical?, 381

Ethnic groups
Racial and ethnic disparities in faculty promotion in academic medicine, 863

Evidence-based medicine
A practice pathway for the management of gliomas of the anterior visual pathway: an update and an evidence-based approach, 141

Eye
A prospective search for ocular lesions in hospitalized patients with significant bacteremia, 264

Retinal stem cells in the adult mammalian eye, 144

Eye movement
A hypothetical scheme for the brainstem control of vertical gaze, 544

Longitudinal ocular motor study in corticobasal degeneration and progressive supranuclear palsy, 142

F

Flow cytometry
Flow cytometric analysis of inflammatory markers in conjunctival epithelial cells in patients with dry eyes, 385

Fovea centralis
ABCR expression in foveal cone photoreceptors and its role in Stargardt macular dystrophy, 689

Foveal relocation by redistribution of the neurosensory retina, 262

G

G proteins
Crystal structure of rhodopsin: a G protein-coupled receptor, 865

Gangliosides
Chronic ophthalmoplegia with anti-GQ1b antibody, 141

Gelfoam
Ocular gelfoam disc-applicator for pupillary dilation in humans, 864

Genetics
ABCR expression in foveal cone photoreceptors and its role in Stargardt macular dystrophy, 689

The DNA sequence of human chromosome 21, 383

Genetic and environmental factors in age-related nuclear cataracts in monozygotic and dizogotic twins, 383

Genetic bases of total colourblindness among the Pingelapese islanders, 865

Hereditary motor and sensory neuropathy with myelin folding and juvenile onset glaucoma, 866

Molecular studies in Cuban patients with progressive external ophthalmoplegia. [Article in Spanish.], 864

Glaucoma
Effect of timolol, latanoprost, and dorzolamide on circadian IOP in glaucoma or ocular hypertension, 687

False-negative responses in glaucoma perimetry: indicators of patient performance or test reliability?, 689

Hereditary motor and sensory neuropathy with myelin folding and juvenile onset glaucoma, 866

Toxicity of preserved and unpreserved antiglaucoma topical drugs in an in vitro model of conjunctival cells, 264

Glioma
A practice pathway for the management of gliomas of the anterior visual pathway: an update and an evidence-based approach, 141

Graves' disease
Radiotherapy for Graves' orbitopathy: randomized placebo-controlled study, 382

H

Hallucinations
Hallucinations in Parkinson's disease. Prevalence, phenomenology and risk factors, 261

Health surveys
NIH, under pressure, boosts minority health research, 381

Hereditary motor and sensory neuropathies
Hereditary motor and sensory neuropathy with myelin folding and juvenile onset glaucoma, 866

Herpes simplex
First episodes of genital herpes in a Swedish STD population: a study of epidemiology and transmission by the use of herpes simplex virus (HSV) typing and specific serology, 863

HLA antigens
Interaction between HLA-DR2 and abnormal brain MRI in optic neuritis and early MS, 690

I

Infections
Lysostaphin treatment of methicillin-resistant *Staphylococcus aureus* keratitis in the rabbit, 544

A prospective search for ocular lesions in hospitalized patients with significant bacteremia, 264

Supplemental perioperative oxygen to reduce the incidence of surgical-wound infection, 263

Intelligence
A neural basis for general intelligence, 687

Interleukins
Doxycycline inhibition of interleukin-1 in the corneal epithelium, 688

Intraocular pressure
Effect of timolol, latanoprost, and dorzolamide on circadian IOP in glaucoma or ocular hypertension, 687

Iris
Black diaphragm aniridia intraocular lens for congenital aniridia: long-term follow-up, 263

K

Keratitis
Lysostaphin treatment of methicillin-resistant *Staphylococcus aureus* keratitis in the rabbit, 544

Keratoconjunctivitis sicca
Microvascular submandibular gland transfer for severe cases of keratoconjunctivitis sicca, 862

Keratoconus
The elusive causes of keratoconus: a working hypothesis, 263

L

Latanoprost
Effect of timolol, latanoprost, and dorzolamide on circadian IOP in glaucoma or ocular hypertension, 687

Lens implantation, intraocular
Black diaphragm aniridia intraocular lens for congenital aniridia: long-term follow-up, 263

Limbus corneae
Reconstruction of damaged corneas by transplantation of autologous limbal epithelial cells, 543

Lymphoid tissue
Conjunctiva-associated lymphoid tissue in the human eye, 385

Lysostaphin
Lysostaphin treatment of methicillin-resistant *Staphylococcus aureus* keratitis in the rabbit, 544

M

Macular degeneration
Clinicopathological correlation in exudative age related macular degeneration: histological differentiation between classic and occult choroidal neovascularization, 142

Proton beam irradiation of subfoveal choroidal neovascularization in age-related macular degeneration, 541

Magnetic resonance imaging
Interaction between HLA-DR2 and abnormal brain MRI in optic neuritis and early MS, 690

Recovery from optic neuritis is associated with a change in the distribution of cerebral response to visual stimulation: a functional magnetic resonance imaging study, 262

Meningioma
Long-term visual outcome after nonradical microsurgery in patients with parasellar and cavernous sinus meningiomas, 689

Micronesia
Genetic bases of total colorblindness among the Pingelapese islanders, 865

Miller Fisher syndrome
Chronic ophthalmoplegia with anti-GQ1b antibody, 141

Minority groups
NIH, under pressure, boosts minority health research, 381

Multiple sclerosis
Interaction between HLA-DR2 and abnormal brain MRI in optic neuritis and early MS, 690

Myasthenia gravis
Treatment of ocular myasthenia. Steroids only when compelled, 382

Treatment of ocular myasthenia with corticosteroids. Yes, 382

Myelin
Hereditary motor and sensory neuropathy with myelin folding and juvenile onset glaucoma, 866

Myopia
The influence of near-work on development of myopia among university students. A three-year longitudinal study among engineering students in Norway, 143

Radiotherapy for subfoveal neovascularization associated with pathological myopia: a pilot study, 542

N

National Institutes of Health
Distribution of research awards from the National Institutes of Health among medical schools, 140

NIH, under pressure, boosts minority health research, 381

Neoplasms
Long-term visual outcome after nonradical microsurgery in patients with parasellar and cavernous sinus meningiomas, 689

A practice pathway for the management of gliomas of the anterior visual pathway: an update and an evidence-based approach, 141

Neural pathways
A neural basis for general intelligence, 687

Neurosurgery
Visual loss after spine surgery: a survey, 261

Neurovisual rehabilitation
Neurovisual rehabilitation: recent developments and future directions, 687

New Zealand
The New Zealand cataract and refractive surgery survey 1997/1998, 543

Norway
The influence of near-work on development of myopia among university students. A three-year longitudinal study among engineering students in Norway, 143

O

Observation
A comparison of observational studies and randomized, controlled trials, 688

Ocular hypertension
Effect of timolol, latanoprost, and dorzolamide on circadian IOP in glaucoma or ocular hypertension, 687

Ocular motility disorders
Longitudinal ocular motor study in corticobasal degeneration and progressive supranuclear palsy, 142

Ophthalmic solutions
Ocular gelfoam disc-applicator for pupillary dilation in humans, 864

Toxicity of preserved and unpreserved antiglaucoma topical drugs in an in vitro model of conjunctival cells, 264

Ophthalmoplegia
Chronic ophthalmoplegia with anti-GQ1b antibody, 141

Molecular studies in Cuban patients with progressive external ophthalmoplegia. [Article in Spanish.], 864

Optic neuritis
Interaction between HLA-DR2 and abnormal brain MRI in optic neuritis and early MS, 690

Practice parameter: the role of corticosteroids in the management of acute monosymptomatic optic neuritis. Report of the Quality Standards Subcommittee of the American Academy of Neurology, 541

Recovery from optic neuritis is associated with a change in the distribution of cerebral response to visual stimulation: a functional magnetic resonance imaging study, 262

Orbital diseases
Radiotherapy for Graves' orbitopathy: randomized placebo-controlled study, 382

Outcome assessment
Black diaphragm aniridia intraocular lens for congenital aniridia: long-term follow-up, 263

Impact of cataract surgery on visual acuity and subjective functional outcomes: a population-based study in Sweden, 142

Long-term visual outcome after nonradical microsurgery in

patients with parasellar and cavernous sinus meningiomas, 689

Oxygen inhalation therapy
Supplemental perioperative oxygen to reduce the incidence of surgical-wound infection, 263

P

Palinopsia
Palinopsia and polyopia in the absence of drugs or cerebral disease, 141

Parkinson disease
Hallucinations in Parkinson's disease. Prevalence, phenomenology and risk factors, 261

Perimetry
False-negative responses in glaucoma perimetry: indicators of patient performance or test reliability?, 689

Phacoemulsification
Phacoemulsification in eyes with white cataract, 864

Photic stimulation
Recovery from optic neuritis is associated with a change in the distribution of cerebral response to visual stimulation: a functional magnetic resonance imaging study, 262

Physicians
Physicians and the pharmaceutical industry: is a gift ever just a gift?, 261

Physicians' recommendations to patients for use of antibiotic prophylaxis to prevent endocarditis, 689

POLA study
Risk factors for cortical, nuclear, and posterior subcapsular cataracts: the POLA study, 264

Polycythemia
Impaired dark adaptation in polycythemia. Improvement after treatment, 143

Polyopia
Palinopsia and polyopia in the absence of drugs or cerebral disease, 141

Postoperative complications
Visual loss after spine surgery: a survey, 261

Pupillary dilation
Ocular gelfoam disc-applicator for pupillary dilation in humans, 864

R

Racial stocks
Racial and ethnic disparities in faculty promotion in academic medicine, 863

Radiotherapy
Proton beam irradiation of subfoveal choroidal neovascularization in age-related macular degeneration, 541

Radiotherapy for Graves' orbitopathy: randomized placebo-controlled study, 382

Radiotherapy for subfoveal neovascularization associated with pathological myopia: a pilot study, 542

Reading
The effect of contrast on reading speed in dyslexia, 545

Monocular occlusion can improve binocular control and reading in dyslexics, 140

Tactile spatial resolution in blind Braille readers, 542

Refractive errors
AC/A ratio, age, and refractive error in children, 690

The New Zealand cataract and refractive surgery survey 1997/1998, 543

Rehabilitation
Neurovisual rehabilitation: recent developments and future directions, 687

What makes clinical research ethical?, 381

Retina
Foveal relocation by redistribution of the neurosensory retina, 262

Retinal stem cells in the adult mammalian eye, 144

Separating the retinal electrophysiologic effects of vigabatrin. Treatment versus field loss, 691

Retinal hemorrhage
Unnatural injuries, 541

Retinal perforations
Prevention of visual field defects after macular hole surgery, 143

Rhodopsin
Crystal structure of rhodopsin: a G protein-coupled receptor, 865

Risk factors
Genetic and environmental factors in age-related nuclear cataracts in monozygotic and dizogotic twins, 383

Hallucinations in Parkinson's disease. Prevalence, phenomenology and risk factors, 261

Risk factors for cortical, nuclear, and posterior subcapsular cataracts: the POLA study, 264

Smoking cessation and risk of age-related cataract in men, 862

S

Salivary glands
Microvascular submandibular gland transfer for severe cases of keratoconjunctivitis sicca, 862

Smoking cessation
Smoking cessation and risk of age-related cataract in men, 862

Spatial acuity
Tactile spatial resolution in blind Braille readers, 542

Spine surgery
Visual loss after spine surgery: a survey, 261

Stem cells
Retinal stem cells in the adult mammalian eye, 144

Submandibular gland
Microvascular submandibular gland transfer for severe cases of keratoconjunctivitis sicca, 862

Supranuclear palsy, progressive
Longitudinal ocular motor study in corticobasal degeneration and progressive supranuclear palsy, 142

Surgery
The resiliency of the corneal endothelium to refractive and intraocular surgery, 384

Sweden
First episodes of genital herpes in a Swedish STD population: a study of epidemiology and transmission by the use of herpes simplex virus (HSV) typing and specific serology, 863

Impact of cataract surgery on visual acuity and subjective functional outcomes: a population-based study in Sweden, 142

T

Tear gas
Is CS gas dangerous?, 262

Thyroid diseases
Radiotherapy for Graves' orbitopathy: randomized placebo-controlled study, 382

Timolol
Effect of timolol, latanoprost, and dorzolamide on circadian IOP in glaucoma or ocular hypertension, 687

Toxicity of preserved and unpreserved antiglaucoma topical drugs in an in vitro model of conjunctival cells, 264

Transplantation
Reconstruction of damaged corneas by transplantation of autologous limbal epithelial cells, 543

Successful transplantation of bioengineered tissue replacements in patients with ocular surface disease, 543

Twins
Genetic and environmental factors in age-related nuclear cataracts in monozygotic and dizogotic twins, 383

V

Vigabatrin
Separating the retinal electrophysiologic effects of vigabatrin. Treatment versus field loss, 691

Using the electroretinogram to detect and monitor the retinal toxicity of anticonvulsants (editorial), 691

Visual function loss from vigabatrin. Effect of stopping the drug, 691

Virus diseases
First episodes of genital herpes in a Swedish STD population: a study of epidemiology and transmission by the use of herpes simplex virus (HSV) typing and specific serology, 863

Vision disorders
Neurovisual rehabilitation: recent developments and future directions, 687

Vision screening
Cost-utility analysis of screening intervals for diabetic retinopathy in patients with type 2 diabetes mellitus, 140

Visual acuity
Impact of cataract surgery on visual acuity and subjective functional outcomes: a population-based study in Sweden, 142

Visual fields
Prevention of visual field defects after macular hole surgery, 143

Visual perception
Long-term visual outcome after nonradical microsurgery in patients with parasellar and cavernous sinus meningiomas, 689

Visual attention impairments in Alzheimer's disease, 384

Visual function loss from vigabatrin. Effect of stopping the drug, 691

Visual loss after spine surgery: a survey, 261

W

Wound infection
Supplemental perioperative oxygen to reduce the incidence of surgical-wound infection, 263

Wounds and injuries
Unnatural injuries, 541
